

Student Body – Healthy Snacks
Wessington Springs Junior High FCCLA Chapter
2019-2020

Members promoted the eating of healthy snacks by providing a place for Wessington Springs Middle/High School students to purchase healthy beverages and snacks every morning at 10:30 a.m. Members evaluated the nutritional content and cost of the products. Then, they selected the products that they would sell each morning. Besides providing healthy snacks for the student body, it was excellent fundraising project for the chapter.

Members also will promote National Nutrition Month in March as part of their exploration of the Health Sciences Career Cluster.
